[Sri Lanka BIZ+] : final report, October 1, 2011 - July 31, 2019 : quarterly results, April - June 2019	The finance management and accounting tools, as well as the HR practices introduced by BIZ+, were highlighted as the most valuable by a majority of the partners we interviewed. In addition to being trained in accounting, many employees were also taught how to use online tools for sales tracking, such as online booking management systems for partners in the Sri Lanka tourism industry. QuickBooks was also provided, although not all partners chose to continue using it (one partner mentioned finding it easier to manage on Excel). However, the importance of maintaining clear accounts has been recogniz..	
Agent Network Strengthening (Epayments) Final Report	There were a total of 538 million active mobile money accounts registered within a 90-day period. In that particular year, there were more mobile deployments than ever before, with a total of 316 deployments in 98 countries and 12.2 million registered agents. USAID has been and continues to be supportive of expanding the accessibility of these digitally-enabled services, which the World Bank acknowledges as a factor in reducing the financial inclusion gap, including the gender gap.	<div>Africa</div> <div>Colombia</div>

[Sri Lanka BIZ+] : final report, October 1, 2011 - July 31, 2019 : quarterly results, April - June 2019	Digital Finance	The finance management and accounting tools, as well as the HR practices introduced by BIZ+, were highlighted as the most valuable by a majority of the partners we interviewed. In addition to being trained in accounting, many employees were also taught how to use online tools for sales tracking, such as online booking management systems for partners in the tourism industry. QuickBooks was also provided, although not all partners chose to continue using it (one partner mentioned finding it easier to manage on Excel). However, the importance of maintaining clear accounts has been recognized and maintained.
Agent Network Strengthening (Epayments) Final Report	Digital Finance	Through these activities, SIA and AHCA established connections with Centenary Bank, a local bank that held accounts for the majority of primary and secondary schools, as well as ServiceCops, a fintech provider that facilitates digital payments for school fees.
	Financial Inclusion	There were a total of 538 million active mobile money accounts registered within a 90-day period. In that particular year, there were more mobile deployments than ever before, with a total of 216 deployments in 98...
